

# **ST. CLAIRSVILLE** RICHLAND CITY SCHOOL DISTRICT

Community Advisory Team Meeting No.1

#### SHP

#### An Introduction to SHP

- Founded in 1901
- Architecture + Engineering Firm
- *'Wrote the book'* on Community Engagement
- Master Planning + Design of 137 schools across the midwest since 1998
- Staff of 94 in Columbus + Cincinnati

#### **SHP**

#### The Community Advisory Team

- Charged with assisting the district in developing master plan options
- Diverse range of perspectives & backgrounds
- Ultimate goal is to make a recommendation to the BOE on Master Plan option with broad community support

#### Community Advisory Team

Meeting Dates + Milestones

#### August 28

Intro to Process + Information Gathering

#### October 23

Refine MP Options with Cost Sets

#### November 13

Board of Education acts on CAT Recommendation

#### September 24

Develop MP Options + Consider early Ed. Vision

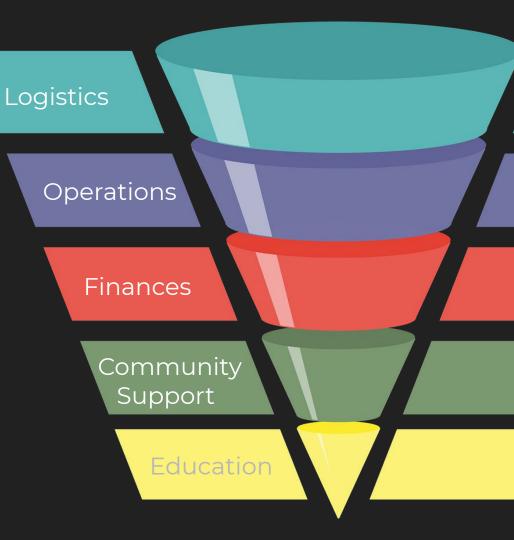

#### November 6

Finalize Master Plan Recommendation to BOE

# **Question One:** What is Master Planning?

### The Master Planning Process

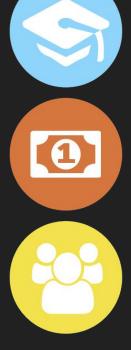

# WHAT IS THE RIGHT PLAN?

#### Educationally Appropriate

#### Financially Responsible

Community Supported

#### **Facility Planning Process**

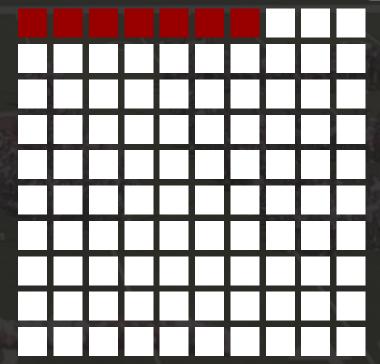

- Update Enrollment
- Update Assessments
- Listen to the Community
- Research the Sites
- Develop Options and Cost
- Recommend Master Plan to BOE

# **Question Two:** Why doesn't the State pay for a new school for us?

#### **State Funding** St. C would receive 7% of funds from the State of Ohio **IF** our number comes up.

# How is the 7% figure calculated?

#### Total Taxable Value

#### No. of Students

#### = Avg. Valuation per pupil

#### 

District	County	FY 19 Rank	3 Yr. Average Valuation
Clearview Local SD	Lorain	1	\$38,469

0° S'

# Where are we on the list?

St. Clairsville is #573 out of 610

# Comparing St.C to Area Schools

# **Question Three:** What Can We Use from the OFCC?

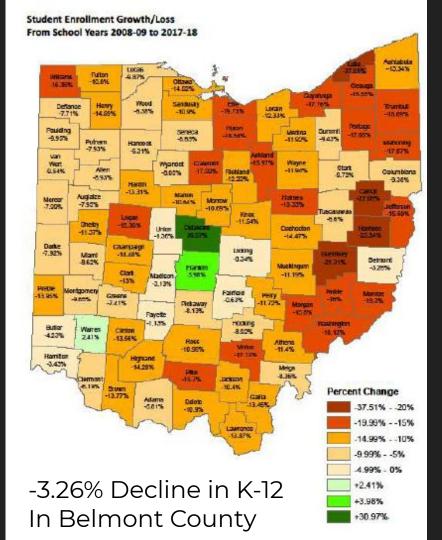

#### **Enrollment Projections**

- OFCC / FutureThink ran a 10 year enrollment project for the district in 2015
- Projections were run to determine the build year (maximum student population) for new facilities
- St. C enrollment was projected to slowly decline from 2015 2025 (26 student difference)

#### Enrollment History

#### -6% Decline in K-12 in OH

#### Projected Enrollment in St. C

Source: FutureThink										41494	-144

#### 2019-2020 Start of School Enrollment: 1,673

#### **Enrollment Projection - Next Steps**

- Review St. C's enrollment for 2016, 2017, 2018 against OFCC / FutureThink numbers
- Update survival ratios, new housing starts, live birth data
- Determine a enrollment planning number that will form that basis of master planning options

#### **Facility Assessments**

- OFCC sent a team of architects and engineers to assess the district's facilities in 2015
- St. C's buildings were reviewed in comparison to the OFCC standards for renovating facilities to a like new condition
- These assessments are a good basis for estimating renovation and ongoing maintenance

#### Facility Assessments

#### 1957 / 1970 66,474sf 2019 cost set update: **CEFPI - Borderline**

#### Facility Assessments - Next Steps

- Review OFCC assessments with custodial and maintenance staff to determine what has changed since 2015
- SHP to perform a more detailed assessment with updated construction cost
- SHP to develop cost to renovation vs. cost to replace as well as the ongoing cost of doing nothing

# **Question Four:** How do we create budget numbers for a new school?

#### Master Plan Budgeting

#### **New Construction:**

# of students x sf/student = Facility size

Facility size x construction cost/sf = total facility cost

#### Additional Cost:

- Site premiums
- Material/systems upgrades

- Renovation of any existing facilities to remain
- Community Spaces (auditoriums, enlarging gyms, meeting rooms)
- Academic delivery upgrades (space, transparency, moveable walls, etc.)

# Now teach us about your community

#### **Focus Groups**

Social Media Influencers, Parents, Staff/Faculty, Elected Officials, Business Leaders, Past Campaign Leaders

Six, one-hour sessions

Focused on past and future of the schools and community

# In groups of 4-6...

#### Questions for your group to consider...

- **1.** If someone were considering moving to this district, what would you tell them about the school system?
- 2. What do you think the community needs to learn about the school system that they don't already know?
- **3.** In the previous bond issue attempt, what went right? What went wrong? What were you hearing in the community?
- **4.** What is the most important thing to consider as we move forward in envisioning the future of the district and its facilities?

#### Back together in 15 minutes

#### Emerging Themes from Focus Groups

Some level of distrust exists between the St. C community and many of its public entities.

Communication between the community and its public entities has been somewhat limited in the past.

The public felt a sense of "Sticker Shock" during the previous bond issue attempt, with many opponents describing the plan as a "Taj Mahal."

The previous bond issue attempt made a positive impact in educating the community about the need for new or renovated facilities.

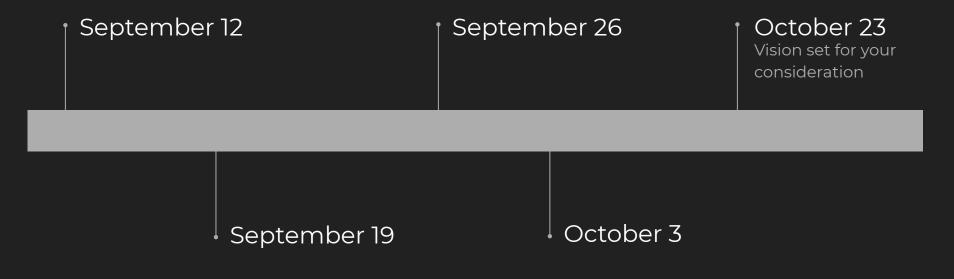

# Also a part of this effort EDUCATIONAL VISIONING
